Innovative Data Scientist & Corporate Trainer with expertise in Generative AI, Machine Learning, Artificial Intelligence, Deep Learning, Data Science, and Data Analytics. Adept at translating complex data into meaningful insights, developing intelligent AI-driven solutions, and optimizing business performance through data innovation. Passionate about inspiring and mentoring professionals, driving digital transformation, and fostering a culture of continuous learning in the world of data and AI.

PROFESSIONAL EXPERIENCE

ATLAS SkillTech University | Mumbai, India **August 2026 - Present**
Visiting Faculty

- Handling Big Data for Finance to MBA students, focusing on financial data analytics, big data applications, and data-driven decision-making in financial management.
- Delivering practical, industry-oriented sessions on financial forecasting, risk analysis, fraud detection, investment analytics, and business intelligence through real-world financial use cases.

Simplilearn Solutions Pvt. Ltd | PAN World **June 2025 - Present**
Corporate Trainer

- Led end-to-end lifecycle of technology certification programs, from curriculum ideation to delivery readiness across Python for Data & AI, Statistics & Probability, Data Science, Machine Learning, Artificial Intelligence, Deep Learning, and Generative AI.
- Designed structured learning pathways and course architectures, including modules, hands-on labs, case studies, projects, and capstone programs aligned with real-world industry use cases.

Imarticus Learning | Mumbai, India **June 2023 - Present**
Senior Trainer

- Conducted in-depth training sessions on Data Science, Data Analytics, Data Visualization, Machine Learning, Predictive Modeling, Statistics, and Python, enabling learners to develop strong analytical and problem-solving skills.
- Designed and developed comprehensive training materials, presentations, hands-on exercises, case studies, and real-world projects to facilitate engaging and effective learning experiences.
- Collaborated with educational institutions and corporate clients to customize training programs, curriculum, and learning pathways aligned with organizational objectives and industry requirements.
- Mentored students and working professionals through end-to-end capstone projects, guiding them in data preprocessing, feature engineering, model development, evaluation, and deployment best practices.

PNT Robotics & Automation Solution | Mumbai, India **January 2022 - Present**
Data Scientist

- Developed transformer-based NLP models capable of understanding contextual textual queries, particularly for technical and engineering domains, enabling intelligent query interpretation and information extraction.
- Designed and implemented advanced Visual Question Answering (VQA) systems using transformer-based architectures to integrate textual and visual data for accurate retrieval from technical diagrams and documentation.
- Applied comprehensive NLP preprocessing and model preparation techniques, including tokenization, stemming, lemmatization, and stopword removal, to optimize text datasets for training robust AI and machine learning models.

IBM | Innovation Centre for Education | PAN India, India
Subject Matter Expert (SME) **July 2021 - Present**

- Delivered 25+ industry-aligned programs covering Predictive Analytics, Social Media Analytics, Web Analytics, Data Science, Machine Learning, Deep Learning, and Time Series Forecasting.
- Mentored learners on real-world projects, capstones, and research work, guiding model evaluation, business interpretation, technical documentation, and production-ready AI/ML practices.

TransStadia Institute | Mumbai & Ahmedabad, India **December 2025 - Present**
Visiting Faculty

- Handled Data Science and Analytics training, covering Data Analytics, Machine Learning, and core Data Science concepts.
- Mentored students on major projects and capstone work, guiding them through problem formulation, data analysis, model development, and result interpretation.
- Supervised research papers and applied analytics projects, helping learners implement real-world data science and machine learning solutions.

International Institute of Sports & Management | Mumbai, India **August 2025 - Present**
Visiting Faculty

- Applied Sports Analytics and IT solutions to improve performance tracking, data-driven decision-making, and strategic planning in sports management.
- Leveraged data analytics tools to analyze player performance, match statistics, and operational data for enhanced team and business insights.
- Integrated IT systems for sports business management, improving fan engagement, operational efficiency, and overall sports program management.

Emeritus Pvt. Ltd | Global **December 2025 - April 2026**
Consultant & Content Auditor

- Consultant with Emeritus supporting global certification programs delivered with Purdue University, University of California, Berkeley, The University of Melbourne, Imperial College London, and IITM Pravartak Technologies Foundation, reviewing and strengthening AI & Data Science curriculum.
- Designing and validating learning pathways for Generative AI (LLMs, prompt engineering, RAG), Machine Learning, Deep Learning, and Python for Data Science with strong industry relevance.
- Developing and evaluating assessments, projects, and capstones for end-to-end Data Science programs covering statistics, analytics, modeling workflows, and deployment concepts.

IMS Proschool Ltd. | Mumbai, India **January 2025 - December 2025**
Visiting Faculty & Trainer

- Delivered an engaging lecture on Artificial Intelligence for Management, Finance to equip management professionals with foundational AI concepts and applications in business.
- Assessed learner performance through assignments, coding challenges, project reviews, and technical discussions, providing constructive feedback to enhance technical proficiency and practical application skills.

ETL Hive | Mumbai, India **February 2025 - June 2025**
Senior Trainer

- Designed and delivered hands-on workshops, technical bootcamps, and live demonstrations on Data Science, Machine Learning, Artificial Intelligence, Deep Learning, and Generative AI using real-world datasets and industry use cases.
- Developed and customized course curriculum, assessments, assignments, and capstone projects to align with current industry standards and enhance learner employability.

Sri Eshwar College of Engineering | Coimbatore, India **April 2024 - December 2024**
Visiting Faculty & Trainer

- Delivered engaging workshops and training sessions in Machine Learning, Data Science, Data Analytics, Data Visualization, NLP, and AI to students, professionals, and academic faculties.
- Guided hands-on projects to foster practical application of theoretical concepts.

Itvedant Education Pvt. Ltd | Mumbai, India **July 2023 - November 2025**
Visiting Faculty

- Design and develop the course curriculum for OpenCV, Time Series Analysis, NLP, and Deep Learning, ensuring it aligns with the latest industry trends and academic standards.
- Conduct lectures, discussions, and hands-on sessions to teach theoretical concepts and practical applications.

Edusprint | Banglore, India **November 2024 - April 2025**
Subject Matter Expert

- Delivered an engaging lecture on Artificial Intelligence for Management to equip management professionals with foundational AI concepts and applications in business.
- Covered key topics such as AI-driven decision-making, automation, and strategic implementation of AI in management practices.

Board Infinity | Mumbai, India **September 2022 - February 2023**
Subject Matter Expert (SME)

- Delivered structured training programs through lectures, discussions, and hands-on sessions, ensuring a balance between theoretical concepts and practical, real-world applications.
- Tailored program content and learning approaches based on client needs, enabling effective knowledge transfer, skill development, and improved learning outcomes across technical and professional training programs.

Quantum Learning | Microsoft | PAN India, India **June 2022 - December 2024**
Subject Matter Expert (SME)

- Designed and customized comprehensive training programs to bridge the gap between theoretical knowledge and practical application, enabling participants to work with real-world datasets, tools, and industry-relevant workflows in Data Science, Machine Learning, and AI.
- Mentored and guided participants through end-to-end projects, conducting hands-on sessions, technical discussions, and project reviews to strengthen problem-solving, analytical thinking, and the practical implementation of data-driven solutions.

PNT Robotics & Automation Solution | Mumbai, India **January 2021 - February 2022**
Senior Trainer

- Compiled IT coaching materials, assessment resources, and technical documentation to enhance learners' understanding of core technical concepts, processes, and industry best practices.
- Designed and delivered instructor-led training sessions on Data Science, Machine Learning, Artificial Intelligence, Python, and emerging technologies for students and professionals.
- Developed structured learning paths, practical assignments, and hands-on lab exercises to reinforce theoretical concepts through real-world applications.

Techradiance | PAN India, India **January 2020 - October 2023**
Senior Trainer

- Designed and developed comprehensive syllabi and training modules for IoT, Robotics, Machine Learning, Data Science, and Artificial Intelligence, tailored to meet industry requirements and participant skill levels.

Build My Project | Mumbai, India **March 2015 - February 2021**
Content Developer & Senior Trainer

- Oversaw technical documentation, instruction, and analysis to satisfy IT education initiatives.
- Compiled IT coaching and assessment resources supported an understanding of technical processes and skill development.

CORPORATE TRAININGS

- Siemens - Data Science Scholarship Program
- Emeritus - Consultant & AuditTATA Power - AI & Data Analytics applications in energy management.
- Sterling Cinemas - Customer analytics and digital transformation.
- RedBus - Python, Machine Learning & Predictive Analytics for demand forecasting.
- Accenture - Machine learning from scratch.
- Thiran360i - Applied AI for business solutions.
- Manipal Cigna - AI for All, Analytics for Healthcare data analytics and visualization.
- Vodafone - Data Science for Telecom Optimization, Prompt Engineering for Practitioners.
- Imarticus Learning Pvt. Ltd. - Industry-integrated AI and ML programs.
- Itvedant Pvt. Ltd. - Advanced curriculum design and technical mentoring.
- ProSchool Pvt. Ltd. - AI for management and finance professionals, GenAI for all.
- Jio - Deep learning and Big Data Analytics for digital platforms.
- HDFC Bank - Python for all, Predictive modeling and customer intelligence.
- Axis Bank- AI for Automation
- Kalpataru - AI & Data-driven automation in real estate operations.
- Birlasoft - AI for all
- Infosys - Data Science for Freshers
- Techfer Global Pvt. Ltd. - Python, AI&ML for all.
- Texum Buildetech Pvt. Ltd. - AI for business development, Python for Technical Team.
- and many more

TECHNICAL SKILLS

Data Science

- Data Analysis
- Statistical Modeling
- Big Data (Pig, Hive, Hadoop, Spark)

Artificial Intelligence

- Generative AI - Large Language Models (GPT, Llama, AI Studio)
- Deep Learning (CNN, RNN, LSTM, Seq2Seq models, Auto encoders, Transformers).
- Natural Language Processing (Embedding, Sequence)

Machine Learning

- Supervised Learning (Regression, Classification)
- Unsupervised (Clustering, Dimensionality Reduction, Association Rule)
- Time Series Forecasting Models (Fusion Transformer, Deep AR, Seq2Seq, Prophet, ARIMA, SARIMA).

Data Analytics

- Power BI
- Tableau
- Excel & jamovi

Programming Language

- Python
- SQL
- C, C++

Cloud Platform

- AWS
- GCP

PROJECTS

- PDF Document Question Answering
- Smart Notes Generator
- Digital Twin- Smart Sports Assistant
- Multilingual Translation
- Applicant Tracker System (ATS)
- Visual Question Answer
- Memory-based LangChain Chatbot
- Domain-Specific Text Generation
- Sentiment Analysis
- Stock Market Forecasting
- Text Summarizer - On The Go
- AI Healthcare Chatbot - Diabetes named “DiabyFriend.AI”
- Face Mask Detection & many more

PUBLICATIONS

- “Multimodel AI Assistant” - Ongoing
- “Model Automation & Evaluation” - Ongoing
- "5G - THE SPEED YOU NEED" - V-Search Journal
- "AI HEALTHCARE CHATBOT - DIABYFRIEND.AI" - Avishkar at Mumbai University
- "MACHINE VISION - THE INNOVATION" - VIT Journal
- "TEXT SUMMARIZER - ON THE GO" - VIT Journal

EDUCATION

ESGCI (École Supérieure de Gestion et Commerce International) | Paris, France
Doctor of Business Administration, Leadership & AI Strategy

Vellore Institute of Technology | Vellore, India
Master of Science, Data Science

Vidyalankar School of Information Technology | Mumbai, India
Bachelor of Science, Information Technology
